

# KS2/3 Maths - Using Evidence to Transform Practice

How to deepen the knowledge and understanding of your pupils.  
Only £295

Day 1 Tuesday 23rd October 2018 9am - 3:30pm:

## ***Investigating the evidence-base***

- Exploring the EEF Maths Guidance Report
- Unpacking the recommendations and implications for teaching and learning developments
- Assessing current practice using EEF audit tool

Day 2 Tuesday 4th December 2018 9am - 3:30pm:

## ***Translating evidence to have high impact in the classroom***

- Using knowledge of students' strengths and weaknesses and common misconceptions to maximise progress
- Developing knowledge and skills to use manipulatives and representations to build student knowledge, skills and understanding
- Planning for impact in both individual classrooms and across a department

Day 3 Tuesday 5th February 2019 9am - 3:30pm:

## ***Embedding and developing practice***

- Strategies to develop problem solving and embed everyday practice
- Developing student independence
- Planning next steps

## KS2/3 Maths -

# Using Evidence to Transform Practice

How to deepen the knowledge and understanding of your pupils.  
Only £295

A three day practical course designed to support schools to implement the research-based recommendations of the EEF Maths Guidance Report.

£295 for three  
full day  
workshops

Resources and  
tools to 'take away'  
from each session.  
Throughout the sessions  
we will be developing  
teachers' own knowledge  
of mathematics and  
how to teach it.
